DIVISION OF INSURANCE

Submitted to the Commissioner of the Department of Commerce and Economic Development

AND

Members of the Alaska State Legislature.

As Director of the Division of Insurance for the State of Alaska, I proudly submit to you the 52nd Annual Insurance Report for the 1989 calendar year as provided for in AS 21.06.110.

The report provides baseline data on the insurance industry's activities within Alaska. Some of the significant findings include:

Property/casualty direct written premiums went up 5.7% from 1988.

Surplus lines premiums are also up from 1988 by 4.8%.

The increase in premium volume has had a corresponding impact on the collection of premium taxes, which increased 7.6%, total received $22,691,760 in fiscal year 1990.

The report also indicates that insurance companies are investing more funds in Alaska. Investments have increased from $2,468,943,000 in 1988 to $3,205,819,000 in 1989.

In addition, 1990 was a very good year for the division and for the insurance consumer in Alaska. As the result of bipartisan support in the Legislature, Alaskan consumers are protected by a life and health guaranty association and by tougher solvency statutes. The division has adopted new regulations on trust accounts and has proposed new surplus lines insurance regulations. More and better options in health care are now possible through the passage of legislation authorizing Health Maintenance Organizations in Alaska.

The division has published a new comprehensive consumer guide which has been distributed statewide. Last, but certainly not least, we at the division have rededicated ourselves to providing the best possible regulation at the lowest possible cost. We have redefined the division's mission statement and enter 1991 with a clear set of priorities and an aggressive work program. All of us at the division thank you for the support we have received from the department, the administration, and the Legislature. We look forward to a productive 1991.

Respectfully submitted,

David J. Walsh

This statistical data represents complaints and inquiries submitted in written form to the division. Telephone inquiries are handled with no record of the calls maintained.

Consumers providing verbal information involving possible statute violations are encouraged to file a written report with their supporting paperwork. Other telephone inquiries fall into the category of consumer assistance through education of the functions of the Anchorage field office, and the technicalities of insurance contracts.

The complaints coverage area is broken down by underwriting, marketing, or claims settlement problems. The largest number of complaints (106) was produced by "accident health group insurance" with a majority of the problems concerning claim settlements. The second largest area was "Private Passenger Automobile" (72), with a majority of complaints involving claim settlements. The level of complaints received in fiscal year 1989 was on par with fiscal year 1988.

AUTOMOBILE ASSIGNED RISK PLAN

Alaska statutes require that all drivers be able to pay (to be financially responsibile) for damages resulting from the ownership or operation of an automobile. The simplest method of meeting this requirement is by purchasing an automobile insurance policy.

The Automobile Assigned Risk Plan was introduced in Alaska in 1959. The purpose of the Plan was as a market of last resort for those people that, for whatever reason, were unable to purchase insurance in the voluntary market.

The Assigned Risk Plan chart shows the number of assignments to the Plan for the years 1960 through 1990.

Volume in the Plan was rather light during the pre-pipeline years of 1960 through 1975. The volume of traffic in the Plan picked up significantly in the mid to late 1970s due to an influx of people working on the oil pipeline as well as the heavy volume of commercial vehicles assigned to the Plan. As the work on the pipeline began to wind down the number of assignments correspondingly dropped to less that 1,000 in 1984.

In 1985 mandatory automobile liability insurance became law in Alaska with a sunset date of midnight December 31, 1989. At that time, according to Department of Public Safety figures, approximately 25% of the motoring public in Alaska was driving while uninsured. With the advent of mandatory insurance, the population in the Plan rose once again. It peaked at 4,838 in 1986 before assuming a gradual decline for two reasons. One, people in the Plan began to qualifying for the voluntary market. Two, because of the sunset date of mandatory insurance (December 31, 1989) people began to cancel their insurance policies and again drive while uninsured. The 1990 legislature reinstated the mandatory insurance law effective June 14, 1989. Once again the numbers in the Plan rose as people realized that they were required to have insurance. The mandatory insurance law sunsets again in 1994. It will be interesting to see if the same pattern repeats itself as 1994 and the repeal of mandatory insurance approaches.
